

Count on in ones from:

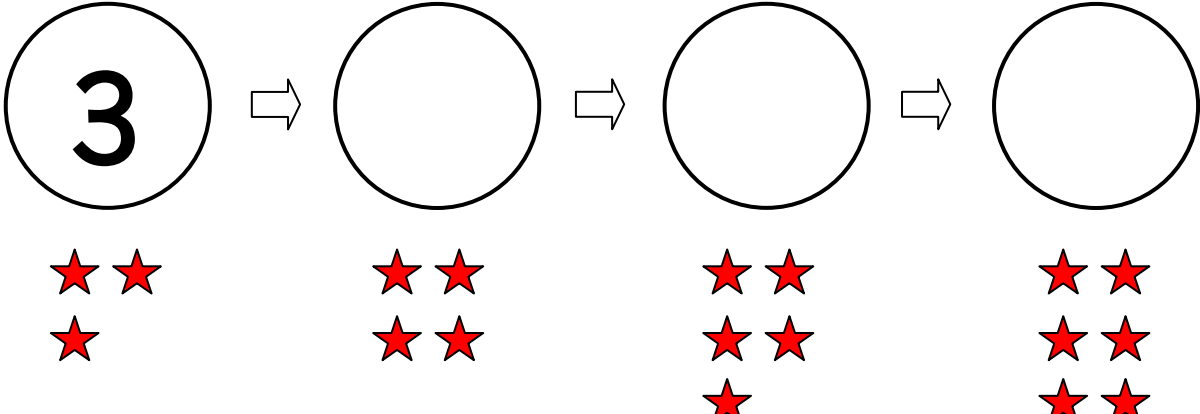

1.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 2. Below each circle is a set of green stars: 2 stars under the first circle, 3 stars under the second, 4 stars under the third, and 5 stars under the fourth.

Count on in ones from:

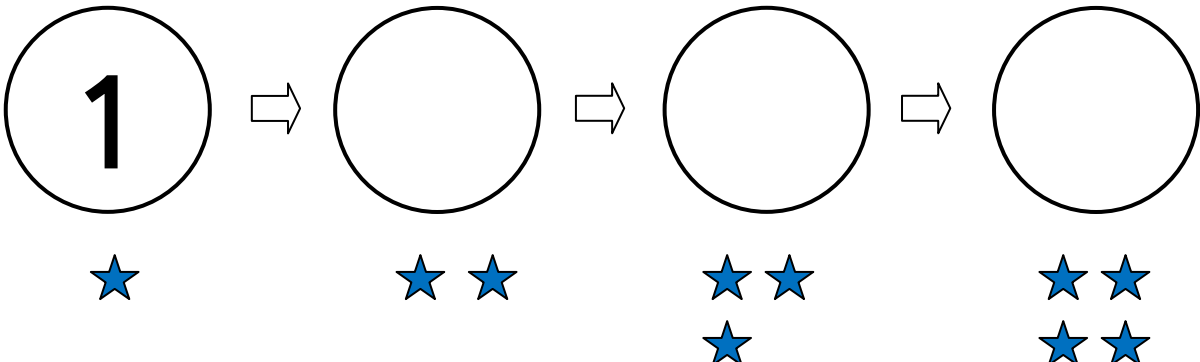

2.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 3. Below each circle is a set of red stars: 3 stars under the first circle, 4 stars under the second, 5 stars under the third, and 6 stars under the fourth.

Count on in ones from:

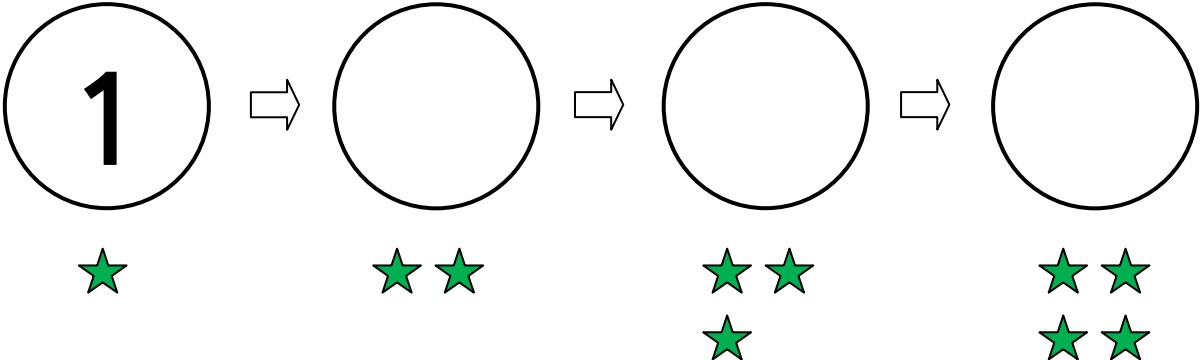

3.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 1. Below each circle is a set of blue stars: 1 star under the first circle, 2 stars under the second, 3 stars under the third, and 4 stars under the fourth.

3.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 2. Below each circle is a set of blue stars: 2 stars under the first circle, 3 stars under the second, 4 stars under the third, and 5 stars under the fourth.

Count on in ones from:

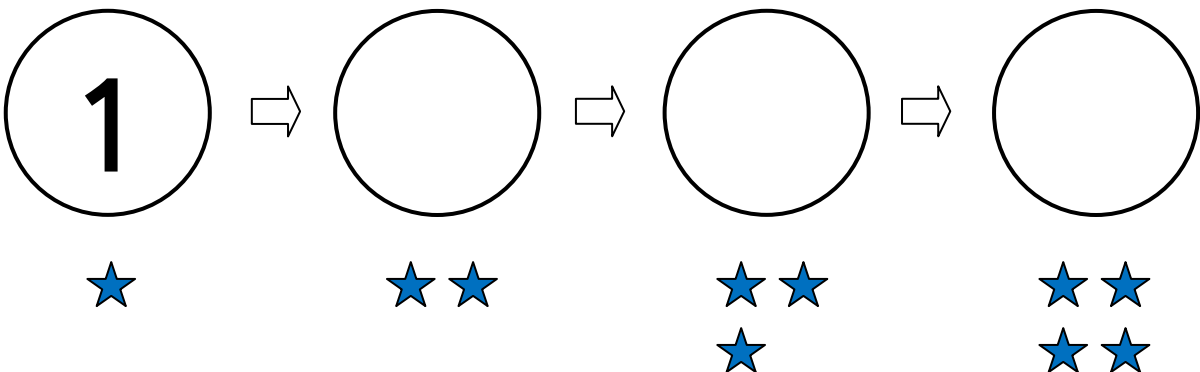

1.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 2 and has two green stars below it. The second circle is empty and has three green stars below it. The third circle is empty and has four green stars below it. The fourth circle is empty and has five green stars below it.

Count on in ones from:

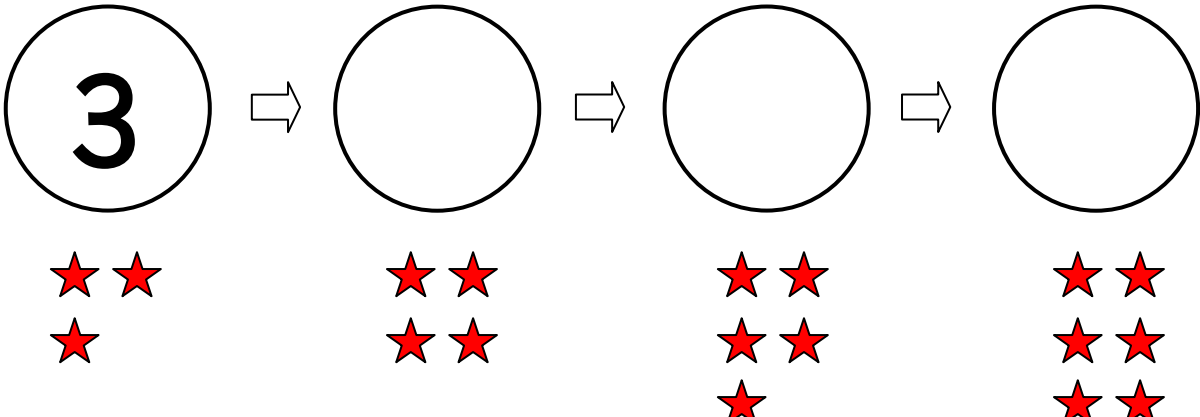

2.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 1 and has one blue star below it. The second circle is empty and has two blue stars below it. The third circle is empty and has three blue stars below it. The fourth circle is empty and has four blue stars below it.

Count on in ones from:

3.

A sequence of four circles connected by right-pointing arrows. The first circle contains the number 3 and has three red stars below it. The second circle is empty and has four red stars below it. The third circle is empty and has five red stars below it. The fourth circle is empty and has six red stars below it.
